Mr. Paul Stacey
CT DEP Waterbureau
79 Elm Street
Hartford, CT 06106

Dear Mr. Stacey:

I am writing in support of the proposed streamflow regulations. It is important that we put human needs first and sustain our fresh water supply.

I would like to add that "Class 4" rivers need environmental standards. We must not allow our streams to run dry nor consider any streams to be "throw away".

We have a brook running through our neighborhood called Means Brook which sometimes has low flow problems especially during the summer months.

I believe these streamflow regulations are a good place to begin and hope the DEP will continue to work towards safeguarding the streams to provide clean water for our residents and maintain healthy fish and aquatic life in our streams.

Sincerely,

Two handwritten signatures in black ink. The first signature, "Judith Brideau", is written in a cursive style. The second signature, "James Brideau III", is also in cursive and appears to be written over or next to the first.
